PT. Pamerindo Indonesia, in partnership with the AIP, will be holding the second annual Indonesian Packaging Forum on the 20th & 22nd November as a part of ProPak Indonesia.

The Indonesian Packaging Forum will be held over two days and will be free for all to attend and will bring together local and global experts to discuss the changing landscape of global and local packaging, waste and recycling regulations, extended producer responsibility and eco-design mandates, local Indonesian programs for resource recovery, collection, recycling and reprocessing, the world of labelling, fibre alternatives, sustainable packaging design and sustainable food systems. Attendees can join the full day program, or come to individual sessions. The annual Forum is internationally recognised and approved to attain Certified Packaging Professional (CPP) points and all attendees can receive a Certificate of Attendance upon request.

DAY 2: THURSDAY 20th NOVEMBER 2025

HELD ALONGSIDE: **PROPAK
INDONESIA**

FREE TO ATTEND

20 NOV Register

10.00 am ARRIVAL & REGISTRATION

TIME: 10.15 am to 11.15 am

SESSION 1: Global & Local Packaging & Waste Regulations

LTC Joseph Ross Jocson
President
Asian Packaging Federation (APF)

Ralph Moyle FAIP, CPP
Education Coordinator
Australasian Institute of Packaging (AIP)

Rocky Pairunan
NPAP Manager/Ocean & Plastic Waste Manager
World Resources Institute (WRI) Indonesia

This session will provide Global & Local Perspectives on Extended Producer Responsibility and Single Use Plastics regulations, new eco-modulation and eco-design regulations and provide a better understanding about what is happening across the globe from a sustainability perspective.

TIME: 11.20 am to 12.20 pm

SESSION 2: Waste to Value, Recycling & Reprocessing technologies for Indonesia

Eki Setijadi
Co-Founder & Chief Operating Officer
Jangjo

Ovy Sabrina
Co-Founder & Chief Operating Officer
Rebricks Indonesia

Pearl Chan
Sustainability Director
Reloop by Nature's Lab

This session will not only discuss Waste Management & Waste to Value, but also mechanical and chemical recycling facilities, but also how you take problematic, difficult to recycle low value materials and create value. Jangjo and Rebricks Indonesia are both striving to find solutions to collect and reprocess contaminated sachets, pouches & multi-layered plastics and transform them into high valuable products. Reloop by Nature's Lab on the other hand, takes a different approach. They are a sustainable packaging company pioneering eco-convertible plastic - a recyclable material that safely breaks down in landfill environments.

12.20 pm to 1.20 pm

LUNCH BREAK

TIME: 1.25 pm to 2.25 pm

SESSION 3: Sustainability through Innovative Technologies & Materials

Puvaneswaran Jsui
Strategic Account Manager South APAC
X-Rite Pantone

Hiroyuki Otsuka
Technical Manager
Toppan Plasindo Lestari

Jayant R. Kadu
Manager (Marketing) Functional Materials Division
Mitsui Chemicals

This session will discuss Advancements in materials and technologies to enhance your packaging and how to meet waste and packaging targets through your Sustainability Targets and Strategies. These speakers will show you what materials and packaging looks like through the lens of recyclability and sustainability.

DAY 2: THURSDAY 20th NOVEMBER 2025

HELD ALONGSIDE: **PROPAK
INDONESIA**

FREE TO ATTEND

20 NOV Register

TIME: 2.30 pm to 3.30 pm

SESSION 4: The intersection between Sustainable Food Systems & Packaging

Lilik Triyanto
International Expert in Agrifood
UNIDO

Hendra Wijaya
Sales Director
Tetra Pak Indonesia

Huangyi Chen
Sustainability Manager, APAC South
SIG Group

Food loss and waste is a major contributor to climate change and greenhouse gas emissions (GHG) globally, and yet it is often not discussed when talking about sustainability. We must not lose sight of the key role packaging plays in not only the protection of a product but also for food safety. Inadequate packaging that results in wasted food is a much bigger waste of resources and environmental impacts. This session will discuss finding the balance between food and packaging waste & recovery targets, designing Save Food Packaging, using the 5 principles of design, to offer the lowest environment impact possible.

TIME: 3.35 pm to 4.45 pm

SESSION 5: Sustainable Packaging Design: The Future of Paper, Renewables & Labels

Lillian Kallman
Director
Acubetic

Ragita Wirastri
Promotion, Marketing & Communication Manager
Indonesian Forestry Certification Cooperative (IFFCC)

William Sukiban
Sales Manager Indonesia
UPM Raflatac Indonesia

Devaki Rajendran
APAC Sustainability Manager
MCC Label

This session will bring together leading experts from across the globe to discuss the importance of meeting the UN SDG's through forest and fibre certifications and the future of paper & renewable materials as alternatives to single use packaging. Discussions will also cover deforestation, Net-Zero Pathways into 2030 & 2045, recycled content, labels and best practice examples of packaging design in these materials.

DAY 4: SATURDAY 22nd NOVEMBER 2025

22 NOV Register

10.00 am ARRIVAL & REGISTRATION

TIME: 10.15 am to 12.30 pm

Sustainable Packaging Design: Tips & Case Studies

Ralph Moyle FAIP, CPP
Education Coordinator
Australasian Institute of Packaging (AIP)

Sustainable Packaging ultimately ensures that the design provides the lowest possible environmental impact compared to existing or conventional packaging. Sometimes achieving the lowest possible environmental impact can be challenging, particularly when balancing various environmental criteria with other functional and commercial considerations.

This session will help you to better understand Sustainable Packaging Design Principles and showcase global best practice examples and case studies. You will walk away with some tips and checklists to ensure that you design packaging that is recycle ready.
