

*Important
Information for
visiting B9*

Before you arrive at our site there are a few things that you should know.

Site address: 1891 Botany Road Matraville (entrance is opposite Bumborah Point Road)

For those who have not yet been to site you will enter the car park via the boom gate, which should be in the uplifted position during daylight hours. We will meet you at the visitor car park turnstile, marked on the above map with a star. As a site entry requirement you will need flat and fully enclosed footwear (as shown below), safety glasses and high visibility vest/clothing. Please advise if you will need to borrow safety glasses and/or a vest and also if you wear prescription glasses so we can ensure we have safety over glasses. A copy of our site safety rules are attached.

Below please find footwear that is not acceptable to be worn while walking on site.

Below please find footwear that is allowed.

Note: If you are required to enter the machine building then you will need safety footwear (AS/NZ 2210).
