Rockwell Automation

Everything you need to know about global safety standards for packaging machinery and how they affect your business.

You are challenged to differentiate yourself amidst global competition and rapidly evolving technology. To effectively compete in this global marketplace, you need to define value beyond the cost of your equipment and maximise company performance.

Mark Dingley
GM Operations
Matthews Australasia

Inspection: Critical to ensure compliance and improve product quality.

What's the key to ensuring compliance, reducing cost and increasing consumer safety in today's manufacturing industry? Precision and Innovation. However, production lines are not always perfect – even when they are fully automated. Find out how you can ensure that any problems are quickly detected, identified and corrected before the goods leave the plant.

Vincent Rouillard
Engineered Packaging and Distribution Research Group
Victoria University

Hazards during distribution: How to collect and interpret data.

With rapidly growing economies all around the globe, demand for quality products and produce is increasing. Find out how you can ensure that such high-value products and produce reach the consumer in prime condition is achieved.

THE AIP/APPMA ENCOURAGES YOU TO SHARE THIS INVITATION WITH YOUR PACKAGING MANAGERS, PRODUCTION DEPARTMENTS, QA AND SAFETY MANAGERS, PROCESS ENGINEERING AND OHS TEAMS.
