

MEMBERS ONLY VIRTUAL TOUR

Sealed Air®

You are invited to join the AIP on a virtual tour of the Sealed Air Packaging Plant

CRYOVAC® BRAND FOOD PACKAGING 

Sealed Air invites you to a virtual tour of its CRYOVAC® brand tray and tub manufacturing plant

Tullamarine, Victoria

 

WHAT:

Sealed Air is in business to protect, to solve critical packaging challenges, and to leave our world better than we found it. Their solutions and systems include CRYOVAC® brand food packaging, SEALED AIR® brand protective packaging, AUTOBAG® brand automated systems and BUBBLE WRAP® brand packaging. These brands collectively enable a more efficient, secure and less wasteful global food supply chain and enhance commerce through fulfilment and packaging solutions to protect the worldwide movement of goods.

Sealed Air's industry-leading expertise in science, engineering, and innovation transforms businesses, industries, and consumers' lives. The company continues to expand its portfolio of next-generation sustainable solutions including packaging materials, automated systems, and smart services to deliver savings and create measurable long-term value.

With approximately 16,500 employees who serve customers across 115 countries, Sealed Air invites AIP members to its CRYOVAC® brand food packaging plant in Tullamarine, Victoria. Here you will take a closer look at its zero waste, polypropylene tray and tub manufacturing facility and learn more about how product design plays an important role in enabling a sustainable and less wasteful food supply chain. Meeting the criteria of its key customer partners for circularity of plastics is a key part of CRYOVAC® brand food packaging solutions - the tour will also look at the work that has enabled the entire product range of this facility to be kerbside recyclable, and look at the future of post-consumer polypropylene recycling as Sealed Air partners with NextLooPP. The future is exciting and Sealed Air looks forward to your company.
