## WHAT:

**What is Polyrok? How will this combat the soft plastics problem? Will microplastics leach into the environment?**

These questions answered, and more, at the 'World Premiere' of the Polyrok Deep Dive Q&A session where you will hear from the industry experts about the beneficial properties of cement and plastics, the independent testing at RMIT, partnership with the RED Group, and successful installations of Polyrok by Coles and local councils.

Moderated by Sustainable Sally, you will learn all about Polyrok and how this scalable, fit for purpose innovation can change how we recycle, shift to a circular economy, and turn problematic soft plastic material into a valuable resource in infrastructure around Australia.
