5th June 2024

10.00 am AEST

# AIP STATE OF INDUSTRY UPDATE WEBINAR: DCCEEW

## TAKING RESPONSIBILITY FOR OUR PACKAGING

**Eco Modulation**  
**Extended Producer Responsibility**  
**MANDATED NATIONAL PACKAGING DESIGN STANDARDS**  
**Chemicals of Concern (CoC)**  
**Recycled Content**

### WHAT:

**DCCEEW is set to reform Packaging Regulation & Design Requirements to deliver a circular economy for packaging in Australia.**

With the Federal Government recently announcing that DCCEEW is developing new mandatory requirements for packaging under Commonwealth regulation that will replace the current co-regulatory arrangement, all packaging technologists and designers need to start looking at how this will change the way they design their packaging going forward.

Australia's new Federal national packaging laws will provide regulatory certainty and consistency, and make businesses take responsibility for the 6.7 million tonnes of packaging they place on the Australian market. Strengthened regulation will drive investment, minimise waste and support circular economy outcomes, industries and jobs. Better packaging design makes it easier to reduce waste, and to reuse, recycle or compost packaging waste. Creating demand for recycled content will also increase recycling rates.

This webinar will discuss the priority pillars for DCCEEW for this reform including:

- DCCEEW to become the regulator of the new packaging regulation.
- Mandatory National Packaging Design Standard.
- Eco-Modulation and Extended Producer Responsibility.
- Eliminating Chemicals of Concern (CoC).
- Establishing minimum thresholds for Recycled Content in all packaging.
- DCCEEW public consultation process and update.

### WHEN:

**Wednesday 5th June 2024**

### MEET THE SPEAKER:

**Jane Cronin**  
Director, Packaging Policy & Reform  
Department of Climate Change, Energy, the Environment & Water

### TIME:

10.00am AEST

### WHERE:

On-Line Via Zoom

### COST:

FREE to AIP Members, Friends & Industry Colleagues
