AIP STATE OF INDUSTRY UPDATE WEBINAR: A NEW PATH FOR SOFT PLASTICS RECYCLING

WHAT:

The Australian Food and Grocery Council (AFGC) is uniting brand owners, retailers, and recyclers across the soft plastics supply chain to form a nation-wide Product Stewardship Scheme. The development of this industry-led soft plastics scheme is critical as it is driving investment into new recycling technologies here in Australia, that are turning used, hard-to-recycle soft-plastics, back into new products including food grade packaging.

The scheme is also making it easier for people to recycle soft plastics at home, allowing for larger quantities of soft plastics to be captured and recycled. The Scheme has completed trials during 2022-2023 and is now set to implement improvements in larger scale pilots. This webinar will provide an update on progress towards the development of an industry-led, soft plastics recycling scheme. Recent milestones and kerbside pilots will be discussed, along with future plans and timelines.
