

AIP STATE OF INDUSTRY UPDATE WEBINAR:

PACKAGING & PACKAGING WASTE REGULATION (PPWR)

PART 2: IMPLEMENTATION & OPERATIONAL DETAILS

WHAT:

Following on from the recent AIP State of Industry webinar that discussed the Basic Toolkit for Understanding the Packaging & Packaging Waste Regulation in Europe, the second webinar in this three part series will be discussing Implementation & Operation Details.

In this session, Charlotte and Lina will take a practical look at what companies need to do to comply with the new European Packaging and Packaging Waste Regulation (PPWR). The webinar will outline the key implementation steps required, with a particular focus on the conformity assessment process. The webinar will explain how this assessment must be carried out, especially from the perspective of importers, and provide clear guidance on operational details to help organisations prepare for compliance.

The webinar will help attendees to better understand key actions required for brands, suppliers, and manufacturers and how to navigate reporting requirements.

The third and final webinar of the series will be discussing PPWR & Data Management and Digitisation.
