

# AIP JOB ADVERTISING OPPORTUNITIES

The AIP have developed a Job Package that enables businesses to advertise vacancies direct to our Members. The package includes a full page advertisement in the AIP monthly newsletter, the position description on the AIP Job Board on the website and on Linked In and Twitter.

## AIP ON-LINE NEWSLETTER

The AIP has a monthly on-line newsletter which is designed to keep Members abreast of all AIP events across the country. The newsletter also provides a technical corner for presentations, partner news, articles and case studies from industry. The newsletter is available via email and on-line eleven times a year.

**Position Vacant Earthodic: Bio-based Coatings Scientist**

Earthodic are seeking an enthusiastic and ambitious Bio-based Coatings Scientist to join their team. Their company is committed to creating sustainable solutions that help save the planet. Earthodic are out to make a big impact to demonstrate that sustainability and performance can go hand in hand. Their bio-based coatings give paper and cardboard superpowers, without compromising the ability to be recycled or composted at end-of-life.

Operating for Earthodic, you will be part of the team based in Geelong, Brisbane where their research and development laboratory is located. As a valued member of their development team, you will be involved in:

- Formulating new coatings and collection of data that may contribute towards company intellectual property. This will involve getting your hands dirty!
- Testing and validation of coating formulations using an assortment of analytical laboratory techniques.
- Optimising coatings to meet their client's needs while adhering to the company's environmental principles.
- Monitoring product quality to ensure compliance with standards and specifications.
- Entering data and results into laboratory information management systems.
- Assistance in the day-to-day operation of a coating laboratory (i.e. working with suppliers & partners). Fulfilling requests for ordering, shipping, and packaging of goods entering and leaving the laboratory.
- General laboratory maintenance tasks.
- Actively participating towards a positive OHS culture and company SOPs.

**Selection Criteria:**

- Educational:** A bachelor's degree in Chemistry, Chemical Engineering, Material Science or related field is preferred. However, they will consider applicants with relevant industry experience and a high school diploma.
- Laboratory Skills:** The ideal candidate should have experience in laboratory techniques, such as formulating and testing coatings. Experience with natural product/bio-based coatings is highly desirable.

**Desirable Criteria:**

- Creativity:** They value creativity and innovation in their laboratory, and they are looking for a candidate who can bring fresh ideas to the table.
- Communication Skills:** The ability to communicate effectively with colleagues, clients, and suppliers is highly desirable.
- Time Management Skills:** The ideal candidate should be able to manage their time effectively and work efficiently to meet project deadlines.
- Technical Knowledge:** Knowledge of coating technologies and applications is highly desirable.
- Positive Attitude:** They are looking for a candidate with a positive attitude, who is passionate about their work, and can motivate and inspire their colleagues.

Earthodic are currently a small team, but with big growth ambitions! They can also offer the successful candidate exposure and experience to other non-technical elements of a high growth science based technology company. This is an entry to mid-level position, and they welcome applicants with varying levels of experience.

Earthodic are an equal opportunity employer that is committed to inclusion and diversity regardless of age, colour, ancestry, religion, sex, national origin, sexual orientation, age, citizenship, marital status, disability or gender identity.
