

PACKAGING FOR SUSTAINABILITY

Editors: Vergheese, Karli, Lewis, Helen, Fitzpatrick, Leanne (Eds.)

AUSTRALIAN INSTITUTE
OF PACKAGING

The packaging industry is under pressure from regulators, customers and other stakeholders to improve packaging's sustainability by reducing its environmental and societal impacts. This is a considerable challenge because of the complex interactions between products and their packaging, and the many roles that packaging plays in the supply chain.

Packaging for Sustainability is a concise and readable handbook for practitioners who are trying to implement sustainability strategies for packaging. Industry case studies are used throughout the book to illustrate possible applications and scenarios. Packaging for Sustainability draws on the expertise of researchers and industry practitioners to provide information on business benefits, environmental issues and priorities, environmental evaluation tools, design for environment, marketing strategies, and challenges for the future.

Two of the authors Dr Karli Vergheese and Dr Helen Lewis are Fellows of the Australian Institute of Packaging (AIP).

AIP Members \$135 AUD inc GST + P&H

Non-Members \$155 AUD inc GST + P&H

QTY ___ TOTAL: _____
