Industry-Recognised Certified Training

2 CPP Points per Workshop

Certificate of Completion

Register today!

The AIP will once again be heading to ProPak Asia on the 14th of June to run 2x workshops covering Sustainable Packaging Design: The Future of Paper, Renewables & Compostable Packaging and Circular Economy for Plastics Packaging: Trends, Barriers & Challenges.

WORKSHOP ONE – SUSTAINABLE PACKAGING DESIGN: THE FUTURE OF PAPER, RENEWABLES & COMPOSTABLE PACKAGING *FREE TO ATTEND*

DATE: 14th June 2024

TIME: 10.15 am arrival & registration Starts at 10.30 am to 12.30 pm

ROOM: SILK 2-3

This workshop will bring together leading experts from across the globe to discuss the future of paper, renewable and compostable packaging design. This interactive workshop will discuss the environmental impacts of each of these alternative packaging materials, where they are suitable, the barriers and trends. Best Practice examples and samples will be showcased to help set the scene on what the future really looks like for these packaging materials under the umbrella of Sustainable Packaging Design.

EXPERTS INCLUDE:

Kim Hetherington
Director Global Sourcing (Bunzl Plc) & Region Development at Bunzl Asia Pacific

Juha Virmavirta
Director RafCycle™ Solutions UPM Raflatac

John Bigley MAIP
Chief Executive Officer Zipform Packaging

Fabienne Sinclair
Head of Marketing PEFC International

Antro Säilä
President - European Packaging Consortium (EPC) Managing Director - Finnish Packaging Association

Supattra Prathummek
Regional Commercial Product Management Lead Amcor Flexibles Asia Pacific

Tim Grant AAIP
Director & Founder Lifecycles

WORKSHOP TWO – CIRCULAR ECONOMY FOR PLASTICS PACKAGING: TRENDS, BARRIERS & CHALLENGES *FREE TO ATTEND*

DATE: 14th June 2024

TIME: 1.15 pm arrival & registration Starts at 1.30 pm to 3.30 pm

ROOM: SILK 2-3

This workshop will bring together leading experts to discuss the global view of what a circular economy for plastics package really looks like. The experts will cover both rigid and soft plastics, trends in materials, new innovations and packaging designs, mechanical and chemical recycling opportunities and more. This is a not-to-miss interactive workshop that will enable attendees to ask all of the difficult questions of these leading experts.

EXPERTS INCLUDE:

Prof Pierre Pienaar FAIP, CPPL
Education Director - AIP Immediate Past President - WPO

Alan Adams MAIP
Sustainability Director APAC SEE (Sealed Air)

Supattra Prathummek
